THE VIZIA COLLECTION

BEAUTIFUL AND BRILLIANT
INSIDE AND OUT

The Vizia Collection's return-to-neutral device design provides the ultimate in visual and tactile appeal. No line breaks or irregular shadow patterns ever detract from their pleasing, symmetrical appearance.

The Vizia Collection is Leviton's most advanced statement in residential lighting and home control technology. This exciting new line of standard and radio frequency (RF) products is designed to accommodate every type of lighting with the homeowner's needs in mind—from providing a dimmer to operate a single lamp to creating an entire wireless home control system.

Integrated into a stylish new form factor compatible with Leviton's hallmark Decora® design, Vizia's striking good looks house the advanced lighting technologies underneath the surface and the possibilities they promise. An all-digital design, coupled with an elegantly simple user interface, results in an exceptionally intuitive, easy-to-operate control. Uncluttered and streamlined, Vizia complements a wide range of decorating styles.

Vizia-RF delivers the reliability and performance of a high-end lighting control system at a moderate cost. With built-in Z-Wave® wireless technology, homeowners can automate lighting, as well as a host of other household appliances and electronics with the touch of a remote. Plus, the Vizia Collection is completely compatible with Decora® screwless and standard wallplates, as well as the complete line of Leviton's Decora wiring devices.

The end result: a family of lighting controls that provides a touch of class.

BEAUTIFUL
FUNCTIONAL
INTUITIVE

EXCEPTIONAL STYLE
INTUITIVE AND
EASY-TO-OPERATE

Varying the amount of light with Vizia dimmers can add beauty and drama...make a small room look open and spacious...or a large room appear more intimate and inviting. Vizia dimmers and switches are designed to add style and give you the ability to control light so you can enjoy your home to its fullest potential.

Because all Vizia dimmers use digital technology, they provide precise control with features such as soft fade-on/fade off, selectable fade rates, and minimum brightness levels.

You can program a customized preset "on" level every time you use the dimmer, change the dimming level without turning on the lights and, thanks to a 10 second delayed-off feature, you have ample time to leave a room or retire before the lights go off.

Press the dimmer's push pad and the lights turn on to the last set brightness level. When a matching remote is installed, its LEDs display and "track" to the same brightness level as the dimmer.

At night, the gentle glow of the locator light guides you to the Vizia device.

The Vizia line of lighting controls includes dimmers, switches, remotes and fan speed controls that are finely engineered for effortless performance.

THE BEAUTY, FUNCTIONALITY AND APPEAL OF VIZIA

PLUS WIRELESS HOME CONTROL

Vizia-RF represents a major innovation in design and function for home lighting control systems. In addition to incorporating all the features of the standard Vizia line, Vizia-RF goes beyond by introducing easy, wireless remote control of lighting, household appliances and electronics.

Vizia-RF achieves the reliability and performance of a high-end "custom" system at an affordable cost. And best of all, you can automate your home without new wires by upgrading your standard wall dimmers and switches with intelligent Vizia-RF components.

Vizia-RF can control individual zones or scenes, filling a room with light or adding security and safety anywhere in the home. Homeowners can customize different scenes by presetting and labeling the lighting. In kitchens and dining rooms, for instance, label lighting levels appropriate for cooking, dining, entertaining and cleanup. Zone control delivers the flexibility to control a group of lights across the room or throughout the home. If you've ever retired for the evening, only to realize that you left the outside lights on, you'll appreciate the convenience of a zone controller. It can turn off all the outside lights or those in the basement, entry-way, or family room, anywhere, at the touch of a button.

For added security, you can create a lived-in look while you're away. Simply schedule inside and outside lights to switch on/off or dim/bright at pre-selected times, using the RF Handheld Remote Controller Programmer/Timer and appropriate plug-in modules, switches and dimmers.

Vizia-RF features Z-Wave technology, a highly versatile and dependable technology that effectively transforms any component –

switches, lighting controls, thermostats, appliances, garage door openers, lamp modules and more - into an intelligent device that can be wirelessly controlled and monitored. You can start small with Vizia-RF in bedrooms and kitchens and easily expand into family rooms, home theaters and even outdoors.

The Leviton Vizia-RF Home Control System portfolio includes architectural-grade digital switches and dimmers as well as a full-function scene controller, zone controller, appliance and lamp plug-in modules, an IR handheld remote control for zone and scene controllers, and a handheld RF programmer/timer remote controller for installation and control of the system. There is also a plug-in RS-232 interface module available for use with automation and other compatible systems.

VIZIA RF

LED BRIGHTNESS DISPLAY

- Seven segments
- Remembers last light level

DIM/BRIGHT BAR

- Press up to increase lighting brightness
- Press down to lower lighting brightness

PUSH PAD

- Short press for ON/OFF
- Long press for Full Bright or 10 sec. delay to OFF

LOCATOR LED

- Illuminates when OFF
- When lights are OFF, you can change light level so that lights will turn ON to that level using just the DIM/BRIGHT bar
- When power is restored after a power outage, lights will return to last setting prior to the power interruption

VIZIA AND VIZIA-RF WALL MOUNTED DEVICES

are offered in a selection of 8 high gloss colors: white, ivory, almond, light almond, gray, black, red, and brown.

- White
- Ivory
- Almond
- Light Almond
- Gray
- Black
- Red
- Brown

VIZIA AND VIZIA-RF WALL MOUNTED DEVICES

are available boxed with three color options: ivory, white and almond (-X) or ivory, white and light almond (-Z)

T H E V I Z I A C O L L E C T I O N

VZ06-1L
600W-120VAC Incandescent Dimmer for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZK10-1L
1000VA-120VAC Fluorescent Dimmer for Mark 10® Powerline or Tu-Wire™ Ballasts for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZS15-1L
15A-120VAC Non-Dimming Electronic Switch for Single-Pole, 3-Way or More Applications, with LED Locator

VZ0SR-1L
120VAC Matching Remote to VZS15-1L Switch for 3-Way or Up to 5 Location Applications, with LED Locator

RZS15-1L ☼
15A Scene Capable Switch For Single-Pole, 3-Way or More Applications with LED Locator. Use RZCS1-1L or VZ0SR-10 for 3-Way applications

RZCS4-1L ☼
4-Scene Controller; With IR Remote Capability

VZM06-1L
600VA-120VAC Magnetic Low-Voltage Dimmer for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZK12-7L
1200VA-277VAC Fluorescent Dimmer for Mark 10® or Tu-Wire™ Powerline Ballasts for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZ00R-10
120VAC Coordinating Dimmer Remote to 120V Dimmers/Fan Speed Control for 3-Way or Up to 10 Location Applications (No LEDs)

RZ06-1L ☼
600W Incandescent Scene Capable Dimmer For Single-Pole, 3-Way or More Applications with LED Locator and Brightness Display. Use RZCS1-1L or VZ0SR-10 for 3-Way applications

RZP03-1LW ☼
300W Scene Capable Plug-In Lamp Dimming Module

RZCZ1-1L ☼
1-Zone Dimming Controller Matching Dimming Remote 3-Way or Up to 10 Location Applications (No LED)

VZM10-1L
1000W-120VAC Incandescent or 1000VA-120VAC Magnetic Low-Voltage Dimmer for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZH08-1L
8A-120VAC Fluorescent Dimmer for Hi-Lume® or Eco-10™ (Eco-Series) Ballasts for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZ00R-1L
120VAC Matching Dimmer Remote to 120V Dimmers/Fan Speed Control for 3-Way or Up to 5 Location Applications, with LED Locator and Brightness/Fan Speed Display

RZ10-1L ☼
1000W Incandescent Scene Capable Dimmer For Single-Pole, 3-Way or More Applications with LED Locator and Brightness Display. Use RZCZ1-1L or VZ00R-10 for 3-Way applications

RZP15-1LW ☼
15A Scene Capable Plug-In Appliance Module

RZCZ4-1L ☼
4-Zone Controller With IR Remote Capability

VZE04-1L
400W-120VAC Electronic Low-Voltage Dimmer for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZH06-7L
6A-277VAC Fluorescent Dimmer for Hi-Lume® or Eco-10™ (Eco-Series) Ballasts for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZ00R-7L
277VAC Matching Dimmer Remote to 277V Dimmers for 3-Way or Up to 5 Location Applications, with LED Locator and Brightness Display

RZM10-1L ☼
1000VA Magnetic Low Voltage Scene Capable Dimmer For Single-Pole, 3-Way or More Applications with LED Locator and Brightness Display. Use RZCZ1-1L or VZ00R-10 for 3-Way applications

RZCOP-1LW ☼
Plug-In Serial Interface Module RS232 ASCII Interface

RZMR1-0SG
IR Handheld Remote Controller For Zone and Scene Control

VZE06-1L
600W-120VAC Electronic Low-Voltage Dimmer for Single-Pole, 3-Way or More Applications, with LED Locator and Brightness Display

VZF01-1L
1.5A-120VAC Quiet Fan Speed Control for Single-Pole, 3-Way or More Applications, with LED Locator and Fan Speed Display

VZ0SR-10
120VAC Coordinating Switch Remote to all 120VAC Dimmers, Fan Speed Controls and VZS15-1L Switch for 3-Way or Up to 10 Location Applications (No LEDs)

RZE06-1L ☼
600W Electronic Low Voltage Scene Capable Dimmer For Single-Pole, 3-Way or More Applications with LED Locator and Brightness Display. Use RZCZ1-1L or VZ00R-10 for 3-Way applications

RZCS1-1L ☼
1-Scene Controller Matching Switch Remote

RZCPG-0SG ☼
RF Handheld Remote Controller Programmer/Timer
